IMPORTANT NOTES:

1. The MASS Mandatory Provident Fund Scheme ("Scheme") is a mandatory provident fund scheme.
2. Investment involves risks and not all investment choice available under the Scheme would be suitable for everyone. There is no assurance on investment returns and your investments/accrued benefits may suffer significant loss.
3. You should consider your own risk tolerance level and financial circumstances before making any investment choices. When, in your selection of constituent funds, you are in doubt as to whether a certain constituent fund is suitable for you (including whether it is consistent with your investment objectives), you should seek financial and/or professional advice and choose the constituent fund(s) most suitable for you taking into account your circumstances. In the event that you do not make any investment choices, please be reminded that your contributions made and/or benefits transferred into the Scheme will be invested according to the Default Investment Strategy as stated in Clause 6 of the MPF Scheme Brochure of the Scheme, and such arrangement may not necessarily be suitable for you.
4. For further details including the product features and risks involved, please refer to the relevant clauses, in particular Clause 3, of the MPF Scheme Brochure of the Scheme.
5. The risk level mentioned in Clause 3 of the MPF Scheme Brochure is for reference only and is not a substitute for independent professional advice. The risk level of each constituent fund is determined by the Trustees based on the percentage of Scheme assets of the relevant constituent funds being invested in equities and subject to regular review by the Trustees, and may change without any prior notice. The risk level is not a financial tool and must not be relied upon to make any investment decisions and selection of constituent funds.

Investment Objective

The Global Growth Fund seeks to achieve a high level of overall return over the long term by investing in a diversified portfolio of global equities and fixed-interest securities. The Global Growth Fund seeks to achieve the above objectives by investing its assets into the Allianz Choice Balanced Fund of the Allianz Global Investors Choice Fund.

As a result of investing into the Allianz Choice Balanced Fund of the Allianz Global Investors Choice Fund, the Global Growth Fund is expected to invest 70% of its assets in equities and 30% in fixed-interest securities. The fixed income portion of the Allianz Choice Balanced Fund of the Allianz Global Investors Choice Fund will consist of a range of instruments issued in countries around the world. The equity portion of the Allianz Choice Balanced Fund of the Allianz Global Investors Choice Fund will be invested primarily in the Hong Kong, Japan, North American and European markets with a smaller proportion, being invested, at the discretion of the investment manager, in other Asian countries and emerging markets.

The inherent risk in implementing the above investment policy is considered medium to high.

Fund Review

US equities rallied overall. News that California-based start-up lender SVB Financial had collapsed rocked the market, coming just days after the failure of cryptocurrency-focused Signature Bank. The news sparked a flight out of smaller lenders, causing a group of well capitalised larger banks, such as JPMorgan Chase and Bank of America, to deposit USD 30 billion to prop up troubled lender First Republic Bank. US bonds closed a volatile month with positive returns. An initial sell-off at the start of March saw the 10-year Treasury bond trade back above 4.0% whilst the yield on the two-year note rose above 5.0 % for the first time since 2007. The resultant yield curve inversion of more than 100 basis points (bps) was the most extreme since 1981.

Fund Performance

The fund's net asset value increased 2.92% from last month.

The assets of Global Growth Fund are invested exclusively into the Allianz Choice Balanced Fund of the Allianz Global Investors Choice Fund.
